CURRICULAR ASPECTS

1.1 - Curriculum Design and Development

1.1.1 - Curricula developed and implemented have relevance to the local, national, regional and global developmental needs which are reflected in Programme Outcomes (POs), Programme Specific Outcomes (PSOs) and Course Outcomes (COs) of the various Programmes offered by the Institution.

The curricula of Social Science Programmes deal with contemporary social issues through imparting theoretical knowledge for tackling

socio-political and economic issues particularly related to developmental issues like prevailing disparities among races, castes, class, gender and religious groups and also with human population vis-à-vis physical environment aimed at creating awareness for sustainable development.

Humanities Programmes contribute towards preserving and strengthening different Indian languages along with inculcating a sense of pride in our traditional cultural ethos amongst the youth. The curriculum of Philosophy promotes logical thinking in order to understand the nuances of human life vis-à-vis material and spiritual development.

While Commerce and various Vocational Programmes focus on employability and skill development Science programmes inculcate scientific temperament amongst the students while providing them with the latest information, enabling them to undertake research activities for development of common masses. The compulsory course on Environmental Science focuses on creating awareness and working towards finding the solution to the global problem of development and preservation of ecological balance.

The special focus on man and nature in the Jharkhand region in different curricula, across streams, is aimed at understanding and tackling the developmental problems of this forest and mineral rich state but economically poor local people.

1.3 - Curriculum Enrichment

1.3.1 - Institution integrates cross-cutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability, and Human Values into the curriculum

The training in appreciation of literature gives them unique exposure to life experiences from different perspectives and prepares them to be good individuals having basic human values like, sincerity, honesty, tolerance, love, empathy, and respect for fellow human beings necessary for our well-being. An awareness of the cultural, historical and politico-economical context of the contemporary world helps the students comprehend the individual interactions with the society, interaction in a group and group dynamics. It takes us to social constructs like gender and help us comprehend the interplay between gender, power, knowledge and empowerment. Physical environmental problems like noise, air, harsh weather, scarcity of water impact both our mental and physical health. The curricula across the subjects focus on an understanding of such interplay and create awareness that would enable us to monitor and ensure sustainable development. Finally, project work which includes dissertation writing, internships and visits to different industrial organizations and field exposure to hospitals and other organizations provides a hands-on experience with varied ill, normal and deviant populations and help us build empathy for such marginalized sections of the society. Besides theoretical knowledge of professional ethical practices, the courses having internship programmes promote observance of professional ethics in practice

RESEARCH, INNOVATIONS AND EXTENSION

3.1 - Promotion of Research and Facilities

3.1.1 - The institution's research facilities are frequently updated and there is a well-defined policy for promotion of research which is uploaded on the institutional website and implemented

Ranchi Women's College fosters a vibrant and productive research culture at the Institute by organising conferences, encouraging faculties to publish papers in national and international journals, and sponsoring faculties to join scientific and professional societies. In order to provide research facilities,

the College has developed different research -oriented laboratory facilities for many departments.

Science labs help the research scholars and PG students to expand their knowledge and enables them to serve the nation to their best capability. Biology lab aims to expose students to various techniques and prepare them for independent research settings.

The Biotechnology lab facilities promote inclination towards research as the instruments have extensive scope for carrying out projects and research activities. The well-equipped tissue culture lab enables projects and research, while the department also offers facilities for work related with molecular biology.

Apart from spectrophotometer in many laboratories, the Botany laboratory has a LED Binocular that can be attached to a laptop and a camera is installed for taking photographs.

The Zoology laboratory's BOD incubator facilitates research related to the environmental studies.

The College library is well-equipped with INFLIBNET, e-journals and a research centre for the projects and research work to be carried out.

7.3 - Institutional Distinctiveness

7.3.1 - Highlight the performance of the institution in an area distinct to its priority and thrust (within a maximum of 200 words)

Ranchi Women's college has carved out a niche for itself in the world of higher education for women in social sciences/humanities, sciences, commerce and vocational courses. It aims to develop the all-round development of personality, bring out the latent qualities of the students and urge them to undertake creative activities. It also addresses the employment prospects of the girls helping them achieve equal opportunity in society. Since most of the students come from lower strata of society, the college intends to help them shape their inner and outer personality into confident, self-reliant, and emancipated persons without any inferiority complex or hesitation.

The college is preparing women students for the rapidly changing world of today and tomorrow. The college has attempted to keep itself updated in knowledge and skills by combining the

traditional subjects in arts and sciences with vocational subjects in the emerging areas such as biotechnology, information technology, fashion designing etc. Many programmes in arts, science, commerce and vocational courses have content related to skill development and employability which is further enriched through classroom discussions, seminars, tutorials, project work, networking with NGOs and lectures/workshops by experts from India and abroad.

It achieved the reputation as a torch bearer to attain freedom from the darkness of ignorance and misunderstanding, leading the girls to the ever widening luminous world of wisdom, knowledge and independence. The students of the college attained the ranks of Justice, Vice Chancellor and Pro Vice Chancellor, Scientists, I.A.S., I.P.S., Bankers, Professors, administrative Officers, Sportspersons, Leaders etc.

Ranchi Women's College was established to provide the opportunity of higher education to the unprivileged women of Chotanagpur, a neglected and undeveloped area of then Bihar with a firm vision and reflected it in the logo to bring forth these women into the main stream of the society from their marginalized status. Since inception till date, the College management concentrates on the same vision with its ceaseless efforts to encourage and inspire the girls of Jharkhand and other states to attain freedom from the darkness of ignorance and misunderstanding and lead them towards ever widening luminous world of wisdom, knowledge and independence. The College still follows the mission to lead girl students to march successfully towards knowledge, enlightenment and empowerment through various curricular, co-curricular & extra-curricular activities.

Besides sharing the knowledge and latest information, the teachers encourage the students to inculcate traditional Indian values. Our vision is translated through our mission to sustain such an atmosphere through which girls can pave ahead towards overall development of personality empowering them thus, in following five ways:

1. To make them intellectually enriched and advanced in knowledge
2. To sensitize them for social causes at global level
3. To fill them with moral strength to fight against social taboos

4. To enable them as a self reliant person by achieving economic independence

5. To encourage them for being mentally and physically fit & healthy.

With the above mission in mind, the college uses all means at its disposal to encourage the growth of personality and character. It provides learning opportunities without favour or discrimination. It empowers students to successfully face the challenges of life through quality education. To translate the above goals into reality, the Cells, Clubs, Associations, NSS and NCC wings have launched several outreach initiatives in order to build a spirit of empathy and social concern. Tremendous efforts are made to equip students with the necessary soft skills that enhance their overall development and personality. The college has been conducting its regular and well-planned value education sessions based on age-appropriate and socially-relevant topics. The robust mentor-mentee programme has further strengthened the above endeavours.

Even during the covid-19 crisis, the college witnessed active participation of students in online workshops/webinars/lectures organized for them.

Part B

CURRICULAR ASPECTS

1.1 - Curriculum Design and Development

1.1.1 - Curricula developed and implemented have relevance to the local, national, regional and global developmental needs which are reflected in Programme Outcomes (POs), Programme Specific Outcomes (PSOs) and Course Outcomes (COs) of the various Programmes offered by the Institution.

The curricula of Social Science Programmes deal with contemporary social issues through imparting theoretical knowledge for tackling socio-political and economic issues particularly related to developmental issues like prevailing disparities among races, castes, class, gender and religious groups and also with human population vis-à-vis physical environment aimed at creating awareness for sustainable development.

Humanities Programmes contribute towards preserving and strengthening different Indian languages along with inculcating a sense of pride in our traditional cultural ethos amongst the youth. The curriculum of Philosophy promotes logical thinking in order to understand the nuances of human life vis-à-vis material and spiritual development.

While Commerce and various Vocational Programmes focus on employability and skill development Science programmes inculcate scientific temperament amongst the students while providing them with the latest information, enabling them to undertake research activities for development of common masses. The compulsory course on Environmental Science focuses on creating awareness and working towards finding the solution to the global problem of development and preservation of ecological balance.

The special focus on man and nature in the Jharkhand region in different curricula, across streams, is aimed at understanding and tackling the developmental problems of this forest and mineral rich state but economically poor local people.

1.3 - Curriculum Enrichment

1.3.1 - Institution integrates cross-cutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability, and Human Values into the curriculum

The training in appreciation of literature gives them unique exposure to life experiences from different perspectives and prepares them to be good individuals having basic human values like, sincerity, honesty, tolerance, love, empathy, and respect for fellow human beings necessary for our well-being. An awareness of the cultural, historical and politico-economical context of the contemporary world helps the students comprehend the individual interactions with the society, interaction in a group and group dynamics. It takes us to social constructs like gender and help us comprehend the interplay between gender, power, knowledge and empowerment. Physical environmental problems like noise, air, harsh weather, scarcity of water impact both our mental and physical health. The curricula across the subjects focus on an understanding of such interplay and create awareness that would enable us to monitor and ensure sustainable development. Finally, project work which includes dissertation writing, internships and visits to different industrial organizations and field exposure to hospitals and other organizations provides a hands-on experience with varied ill, normal and deviant populations and help us build empathy

for such marginalized sections of the society. Besides theoretical knowledge of professional ethical practices, the courses having internship programmes promote observance of professional ethics in practice

2.2 - Catering to Student Diversity

2.2.1 - The institution assesses students' learning levels and organises special programmes for both slow and advanced learners.

The College assesses the learning levels of the students based on classroom interactions, attentiveness in the class, general awareness, periodic assessment in the form of assignments and tests and laboratory work and students are identified as slow and advanced learners.

Strategies for slow learners

Each student is assigned a mentor. Mentors discuss academic and personal problems, challenges and ideas for improvement. Library classes and tutorials have been allocated each week in the timetable along with revision classes after the completion of the syllabus. Study materials are also provided. The students are encouraged to study in groups.

Strategies for advanced learners

Advanced learners are encouraged to enrol in MOOC Courses on platforms like Swayam etc. Students are encouraged to attend and present papers in various seminars, conferences, competitions etc. In-house debate, group discussions, quizzes and competitions are organized frequently for students. The academic achievements of students are acknowledged with gold medals in convocation.

RESEARCH, INNOVATIONS AND EXTENSION

3.1 - Promotion of Research and Facilities

3.1.1 - The institution's research facilities are frequently updated and there is a well-defined policy for promotion of research which is uploaded on the institutional website and implemented

Ranchi Women's College fosters a vibrant and productive research culture at the Institute by organising conferences, encouraging faculties to publish papers in national and international journals, and sponsoring faculties to join scientific and professional societies. In order to provide research facilities, the College has developed different research -oriented laboratory facilities for many departments.

Science labs help the research scholars and PG students to expand their knowledge and enables them to serve the nation to their best capability. Biology lab aims to expose students to various techniques and prepare them for independent research settings.

The Biotechnology lab facilities promote inclination towards research as the instruments have extensive scope for carrying out projects and research activities. The well-equipped tissue culture lab enables projects and research, while the department also offers facilities for work related with molecular biology.

Apart from spectrophotometer in many laboratories, the Botany laboratory has a LED Binocular that can be attached to a laptop and a camera is installed for taking photographs.

The Zoology laboratory's BOD incubator facilitates research related to the environmental studies.

The College library is well-equipped with INFLIBNET, e-journals and a research centre for the projects and research work to be carried out.

7.3 - Institutional Distinctiveness

7.3.1 - Highlight the performance of the institution in an area distinct to its priority and thrust (within a maximum of 200 words)

Ranchi Women's college has carved out a niche for itself in the world of higher education for women in social sciences/humanities, sciences, commerce and vocational courses. It aims to develop the all-round development of personality, bring out the latent qualities of the students and urge them to undertake creative activities. It also addresses the employment prospects of the girls helping them achieve equal opportunity in society. Since most of the students come from lower strata of society, the college intends to help them shape their inner and outer personality into confident, self-reliant, and emancipated persons without any inferiority complex or hesitation.

The college is preparing women students for the rapidly changing world of today and tomorrow. The college has attempted

to keep itself updated in knowledge and skills by combining the traditional subjects in arts and sciences with vocational subjects in the emerging areas such as biotechnology, information technology, fashion designing etc. Many programmes in arts, science, commerce and vocational courses have content related to skill development and employability which is further enriched through classroom discussions, seminars, tutorials, project work, networking with NGOs and lectures/workshops by experts from India and abroad.

It achieved the reputation as a torch bearer to attain freedom from the darkness of ignorance and misunderstanding, leading the girls to the ever widening luminous world of wisdom, knowledge and independence. The students of the college attained the ranks of Justice, Vice Chancellor and Pro Vice Chancellor, Scientists, I.A.S., I.P.S., Bankers, Professors, administrative Officers, Sports persons, Leaders etc.

Ranchi Women's College was established to provide the opportunity of higher education to the unprivileged women of Chotanagpur, a neglected and undeveloped area of then Bihar with a firm vision and reflected it in the logo to bring forth these women into the main stream of the society from their marginalized status. Since inception till date, the College management concentrates on the same vision with its ceaseless efforts to encourage and inspire the girls of Jharkhand and other states to attain freedom from the darkness of ignorance and misunderstanding and lead them towards ever widening luminous world of wisdom, knowledge and independence. The College still follows the mission to lead girl students to march successfully towards knowledge, enlightenment and empowerment through various curricular, co-curricular & extra-curricular activities.

Besides sharing the knowledge and latest information, the teachers encourage the students to inculcate traditional Indian values. Our vision is translated through our mission to sustain such an atmosphere through which girls can pave ahead towards overall development of personality empowering them thus, in following five ways:

1. To make them intellectually enriched and advanced in knowledge

2. To sensitize them for social causes at global level
3. To fill them with moral strength to fight against social taboos
4. To enable them as a self reliant person by achieving economic independence
5. To encourage them for being mentally and physically fit & healthy.

With the above mission in mind, the college uses all means at its disposal to encourage the growth of personality and character. It provides learning opportunities without favour or discrimination. It empowers students to successfully face the challenges of life through quality education. To translate the above goals into reality, the Cells, Clubs, Associations, NSS and NCC wings have launched several outreach initiatives in order to build a spirit of empathy and social concern. Tremendous efforts are made to equip students with the necessary soft skills that enhance their overall development and personality. The college has been conducting its regular and well-planned value education sessions based on age-appropriate and socially-relevant topics. The robust mentor-mentee programme has further strengthened the above endeavours.

Even during the covid-19 crisis, the college witnessed active participation of students in online workshops/webinars/lectures organized for them.
